Community Programs Report

Community Response Bureau (CRB) Functions:

The function of the Community Response Bureau is to foster and preserve open avenues of communication between the Department and the diverse communities it serves in an ongoing effort to identify, understand and solve the contemporary public safety problems facing those communities. Community Response Bureau oversees a variety of outreach initiatives which include the Community Liaison Officers, the Recruitment Section, the Police Athletic League, the School Resource Officers, Crime Prevention Through Design (CPTED), Nixle, Operation Medicine Cabinet, Gun Buy-Back programs, and Impact Truancy. Additionally, Community Response Bureau coordinates language access resources for the Police Department, formulates and updates the Language Access Plan, conducts community satisfactions surveys, and acts as the central repository of community relations information for the Police Department.

Community Response Bureau Programs:

COMMUNITY LIAISON OFFICER :

The Community Response Bureau added 7 Community Liaison Officers (CLOs) to serve as a bridge between law enforcement and the communities they serve. CLOs work with an array of individual community members, advocacy groups, business owners, school officials, and other governmental agencies to enhance community relations and to help identify trends and patterns of countywide community issues.

CLOs assigned to the CRB are detailed out to each of the 7 precincts in the Police District. . They host and attend regularly scheduled community meetings, visit with citizens and organizations to increase crime awareness, crime prevention, and safety. They also coordinate with our School Resource Officers (SROs) to assist in providing training which is relevant to the communities served, and often assist in identifying at-risk youth populations. . The CLOs focus their efforts in communities most in need of assistance, and provide a highly visible and accessible representative of the Police Department

LANGUAGE ACCESS PLAN:

The Community Response Bureau, developed the Police Department's Language Access Plan (LAP), in order to assist all individuals with limited English proficiency. The CRB actively distributes the LAP in both English and Spanish throughout the Police District, posts it on the SCPD website, and displays it in each police facility open to the public.. The CRB acquired

40 new Language Line handsets for installation throughout the police district, and has developed a Special Training Bulletin, 14-02d, which highlights all language access services, including a new conference calling function provided by Language Line Services. Memo Book inserts were also developed and distributed to all Department members explaining how to access Language Line in any situation. Community Response Bureau has also begun translating 10 vital documents, (8 public and 2 internal) into the 6 most commonly spoken non-English languages in Suffolk County. The Community Response Bureau meets with Language advocate representatives and Community groups quarterly in order to better serve LEP individuals and to request input regarding the Language Access Plan to ensure that it is addressing the needs of the Latino community.

SCHOOL RESOURCE OFFICER PROGRAM:

CRB School Resource Officers (SROs) will continue conducting the following presentations to high school and middle school students: **Prescription Drugs to Heroin, Gangs & Associated Violence, Diversity & Tolerance, Cyber Law, Alcohol & the High School Student, Social Host & Pre-Prom, and Vehicle Survival-Behind the Wheel.** The top priority of CRB is to present these topics in high schools and middle schools throughout the police district, and it is the Bureau's goal to be available to any school that requests assistance. Presentations are offered to elementary schools as SROs' schedules permit.

Community Response Bureau SROs and Precinct SROs meet on a bi-monthly basis to share information and conduct training. The objective is to ensure all SROs possess the most up-to-date information/intelligence concerning the schools in which they work. Officers are also provided the most current versions of presentations being offered. This approach has enhanced the consistency of and the information provided to students.. (Attachment # 1)

NIXLE:

The Community Response Bureau in a coordinated effort with the Police Technology Bureau and the Public Information Section has utilized Nixle Alert System to disseminate information to the public in both English and Spanish. Community Liaison Officers, COPE officers and School Resource Officers are advertise upcoming events, such as precinct monthly meetings, festivals, parades, updates on current police activity to alleviate community concerns, through the use of Nixle. CLOs, COPE and SROs are also actively advertising the availability of Nixle alerts to community groups, church groups, school administrators and parent-faculty groups. Although Nixle maintenance is not the responsibility of Community Response Bureau, CRB will continue to advertise the availability of the alert system in Spanish newspapers and promote its availability at community meetings and events. (Attachment# 2)

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN:

The goal of Crime Prevention Through Design (CPTED) is to reduce opportunities for crime that may be inherent in the design of buildings and neighborhoods. A Community Response Officer trained in CPTED assesses the physical design of buildings including: landscape

plans, lighting, access control, security features, traffic control and safety improvements. Upon request, the Bureau will conduct CPTED site surveys for schools and businesses, which can assist with crime reduction and quality of life issues.

HUNTINGTON STATION COMMUNITY AND BUSINESS DISTRICT OUTREACH:

The Huntington Station Community and Business District Outreach Program is a pilot program recently started in the 2nd Precinct giving targeted enhanced community policing to the Huntington Station residents. Community Response Bureau developed this program which surveys residents on specific issues and offers CPTED information to business owners in the area. Two CRB officers have been assigned to work directly with CLO and COPE officers in Huntington Station to conduct a door to door survey of residents to create a dialogue between the community and the police department. Additionally, a crime prevention officer has been tasked to engage every business in the Huntington Station area in order to provide recommendations and pertinent educational materials for safe business practices. A Spanish speaking officer was specifically selected to assist in the residential survey portion in order to maximize engagement of the Latino community. This program will be duplicated in other communities within the police district during the 2015 calendar year. (Attachment #3)

HEROIN OUTREACH PROGRAM:

Community Response Bureau has coordinated with the William Floyd School District to present Heroin Awareness to the parents within the Mastic, Mastic Beach and Shirley communities. CRB officers along with representatives from Seaford Rehabilitation Center, and Coalition for Social Justice reached a district wide audience. A School Resource Officer presented information on heroin and prescription drug awareness geared toward parents. Seaford presented information on in-patient and outpatient resources and explained differences between 28 day treatment programs and long term programs. A representative from Coalition for Social Justice explained Narcan and its uses, demonstrated how to use the opiate inhibitor and then distributed it on request. The program was highly successful and will be expanded to other districts upon request.

RECRUITMENT:

The SCPD Recruitment Section is responsible for actively recruiting qualified candidates to consider a career in law enforcement with the Suffolk County Police Department. Recruitment practices are continually analyzed and enhanced to determine the most effective measures. Recruitment Section maintains liaison with colleges and community groups for referrals in qualified candidates. Special emphasis is directed toward recruiting Latino, African-American, and other minority candidates, including Spanish speaking candidates, for the 2015 entrance examination. SUFFOLK COUNTY POLICE ATHLETIC LEAGUE:

PAL is a recreation oriented organization that utilizes sports and recreational activities to tighten the bond between police officers, youth and members of the community. The PAL program enables more than 20,000 children to engage in a variety of sporting events and recreational activities. The goal of PAL is to engage our youth in hopes of decreasing the lure of gangs, drugs, and delinquent behavior. PAL officers will continue to conduct and enhance the Department's PAL program in 2015. Expand

IMPACT TRUANCY:

The Community Response Bureau, in cooperation with William Floyd High School and the Education Assistance Corp. (EAC), conducted a truancy reduction program called **IMPACT TRUANCY**. Several Community Response Bureau Officers (CLOs, SROs) met after school with 9th grade students who were identified by administrators as intra-day truants; students who go to school in the morning, but then skip their assigned classes. Research has shown that the transition years (9th and, 6th grades) are an important time to identify students who are beginning to skip classes or school entirely.

The Community Response Bureau CLOs and SROs conveyed the importance of finishing high school and facilitated various exercises with students and counselors from EAC. The program assisted students in identifying their specific needs in order to better prepare them for school. The program continues to be well received.

I-DENT-A-KIT:

During 2014, 420 children were fingerprinted and received I-DENT-A-KIT packets, designed to assist investigators in cases of missing or abducted children.

S.A.V.E (SCHOOL ACTIVE VIOLENCE EMERGENCY):

The Community Response Bureau continued implementing the School Active Violence Emergency (S.A.V.E.) Program. This program streamlines the police response to an actively violent school situation. As of October 30, 2014, S.A.V.E. hotline numbers have been installed in 29 public school districts within police district. The program is running with live phones in 27 of these districts, where 276 phones have been installed in 183 school buildings. Two remaining districts with 31 buildings, and a college with 3 buildings are in the implementation process. In addition, 7 private schools are utilizing the program, 2 with live hotline phones in their buildings. Community Response Bureau will continue to be responsible for coordinating the implementation of this program and will act as a liaison between these schools and the police department.

CRASH COURSE IN CRASH AVOIDANCE:

This program is a half day safe driving instructional course for teenagers between 16-19

years old. The goal of this program is to educate teenagers in avoidance measures under dangerous driving conditions. During July, 2014, SCPD Emergency Vehicle Operation Course instructors provided one week of instructional driving courses, offering 2 sessions per day, which allowed more than 120 teenagers to complete the program.

OPERATION MEDICINE CABINET:

In a continuing effort to address the increase of heroin use among young people and ensure the proper disposal of unwanted or expired medications, the Suffolk County Police Department initiated a permanent, continuous drug reclamation program. The SCPD was the first police department in New York State to offer the public the option of disposing unwanted pharmaceutical drugs 24 hours a day, seven days a week. In 2014, over 6,070 pounds of unwanted pharmaceutical drugs were deposited at the seven police precincts. Since the program's inception in July 2010, over 19,500 pounds of medications have been collected. This program will continue in 2015.

GUN BUY BACK:

In 2014 the Suffolk County Police Department conducted 2 gun buy-back events. A total of 126 weapons were collected, including 9 assault weapons, and 30 high capacity magazines.

Satisfaction Survey Report

The Suffolk County Police Department Community Survey was developed to determine the Latino communities' satisfaction with the Department's service to LEP individuals in those communities. The survey, which is distributed in both English and Spanish, gauges the ease of communication between the respondent and the police, whether a request for language assistance was made, and whether or not it was provided. The survey further measures the level of satisfaction with any language assistance provided, as well as the overall level of satisfaction regarding the police service provided.

Additionally, the survey asks the respondent to describe relations between the Department and the community, whether they were treated respectfully during encounters with police officers, if they felt they had been a victim of racial profiling by the police, and their level of certainty that the Department will take and fully investigate a complaint against one of its own officers for police misconduct. The survey seeks the level of awareness of Department programs and gauges the level of satisfaction respondents experienced in these programs. The survey inquires about the level of safety individuals experience in their neighborhood, their perception of crime rates in their neighborhood, services they would like to see more of, and a ranking of

specific community issues by importance to the respondent. Finally, the survey asks for comments and recommendations from the respondent, allowing for a free-form dialogue.

The SCPD Community Survey is distributed by Community Liaison Officers, COPE, School Resource Officers, and line police officers to various groups throughout the police district. It is available at each of the seven precincts and is distributed to local libraries, given to leaders and attendees at community meetings, delivered to local businesses and to church services. Going forward, the Police Technologies Bureau is in the final stages of constructing an on-line platform to allow electronic submission via the Department's website.

More than 1,000 surveys were returned between early October and the second week of November. The Research and Development (R&D) Section has been tasked with the collection, maintenance and production of the data gleaned from the surveys. Once a sufficient data pool is available for annual analysis, the R&D Section will provide the Community Response Bureau with all data points necessary to conduct a thorough analysis. While this pool has yet to be established, the CRB conducted a sample analysis of the 1,000+ surveys on hand. The written comments on every survey were reviewed, tabulated on a spread sheet, and sorted by the precinct indicated on the survey.

These comments touched on a wide range of concerns such as; better police response time, higher visibility, more Spanish speaking officers, and more officers in general. Comments included suggestions that officers receive more sensitivity training, adjust their attitude and demeanor, employ better communication skills, pay more attention to the community, and advertise police/community programs better. Although no specific allegations of police misconduct necessitating further investigation were reported, some comments raised issues such as racial profiling and stereo-typing.

The information gleaned from the sample analysis has been disseminated to the Police Commissioner and the command staff, as well as to the Precinct Commanders. (Attachment #5)

Success Report

Community Response Bureau Successes:

The Community Response Bureau engaged in many projects and programs with great success during 2014. The CRB has continued with existing programs and initiated some exciting new programs. The assignment of a Community Liaison Officer to each of the seven precincts allows our bureau to have contact with the various communities within our police district. Preference in these personnel assignments was given to officers with bi-lingual capabilities relevant to the area in which they work. The CLO's along with precinct COPE personnel have mapped their resources within the precinct boundaries and have continued to expand their community outreach efforts. The CLO's description has been posted to the website along with their contact information and hours of availability.

The Community Response Bureau has completed and has been actively distributing the Language Access Plan in both English and Spanish to assist community members with Limited English Proficiency. This plan will be reviewed on a continual basis and we will continue to seek feedback from the Latino community in an effort to assess and make amendments when necessary. Community Response Bureau has coordinated the translation of documents posted to the and obtained 40 new Language Line handsets which are being installed in Department buildings. CRB has issued Training Bulletins that explain how to utilize Language Line Services, and has Memo Book card inserts to all Precincts. (Attachment #14) CRB has posted signage in English and Spanish at all Precincts, Impound, Court Liaison, Property, Marine Bureau and Airport Operations. (Attachment #15) In addition, English/Spanish versions of Missing Person Guidelines, Halloween Safety, Bicycle Safety, information have been posted online, and revisions have been made to the SCPD Coloring Book (both languages in same book), Swim Safety and Social Host information. The Compliment Complaint Form has been revised to reflect the Spanish Complaint line phone number and the added language "Spanish speaking operator will be available". CRB coordinates and publishes Nixle alerts, available in both Spanish and English, and CLO, COPE and SRO personnel actively advertise the

availability of Nixle as an alert system to keep the community informed of upcoming events, current issues and ongoing police activity in their precinct.

The Community Survey was completed and distributed to solicit feedback on satisfaction with SCPD services and language access. The Community Survey will be disseminated in an ongoing basis to continually assess the satisfaction of the Suffolk County community with the Police Department.

The Community Response Bureau has successfully launched several pilot outreach programs. Particularly, the Heroin Awareness Program held at schools is very well received and addresses an issue indicated in every precinct county wide. This program will be replicated in other districts during the upcoming year. Additionally, the Huntington Station Community and Business Outreach Program has been successfully received by the Huntington Station community. This program will be initiated in other communities in the police district next year to continue targeted community outreach.

Community Response Bureau Areas Requiring Improvement:

Although the Community Response Bureau has experienced significant success during 2014, there are several areas that require some improvement. To date, a certification process and incentive plan for Department Authorized Interpreters has yet to be established. Once this has been accomplished, a comprehensive training effort will make the interpretation process uniform across the police district. The Department must also expand its offerings of supplemental language training to officers in areas with significant LEP populations. To that end the CRB is considering Rosetta Stone, Spanish on Patrol, educational re-imbursement and other initiatives for 2015.

Another area requiring improvement is the development of a unified system of documentation for Community Response Bureau outreach efforts. Although Community Response Bureau is the centralized hub of community outreach, the majority of the work is completed at the precinct level involving the CLO's, SRO's and COPE officers. Each precinct has its own unique method of documenting issues raised, the manner in which they have been addressed, as well as the numerous other outreach efforts provided on a daily basis. To rectify this, CRB is working closely with the Police Technology Bureau to develop a database platform to bring uniformity to the reporting and maintenance of community related data.

Finally, awareness of, and compliance with measures implemented under the Settlement Agreement is an area that requires continued and careful oversight.. Many of the changes brought forth in the Department that are overseen by the CRB alter long standing customs and procedures. The CRB will work diligently in 2015 to facilitate the operational changes brought about by Agreement implementation..

Make your Business Safer

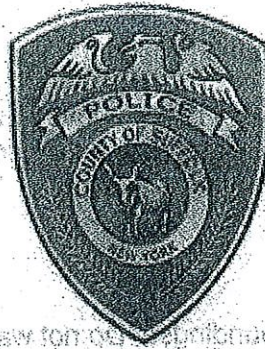

Every business owner, manager and employee plays a part in making businesses safe. Here are some things you can do to help prevent robbery:

- Have at least two employees open and close the business.
- Do not release personal information to strangers.
- Keep purses and personal valuables locked in desks or lockers.
- Install a robbery alarm.
- Place a surveillance camera behind the cash register facing the front counter. Replace videotapes regularly.
- Vary times and routes of travel for bank deposits.
- Don't use marked "moneybags" that make it obvious to would-be robbers you are carrying money for deposit.
- Keep a low balance in the cash register.
- Place excess money in a safe or deposit it as soon as possible.
- Cooperate with the robber for your own safety and the safety of others.
- Comply with a robber's demands. Remain calm and think clearly. Make mental notes of the robber's physical description and other observations important to law enforcement officers. If you have a silent alarm and can reach it without being noticed, use it. Otherwise, wait until the robber leaves.
- Be careful, most robbers are just as nervous as you are.
- Keep your business neat and clean. A tidy, orderly place of business is inviting to customers, but not to robbers.
- Stay alert! Know who is in your business and where they are. Watch for people who hang around without buying anything. Also, be aware of suspicious activity outside your place of business. Write down license numbers of suspicious vehicles if visible from the inside of your business.
- Make sure the sales counter can be seen clearly. Don't put up advertisements, flyers, displays, signs, posters or other items on windows or doors that might obstruct the view of the register from inside or outside your business. The police cruising by your store need to see in.
- Try to greet customers as they enter your business. Look them in the eye, and ask them if they need help. Your attention can discourage a robber.
- Keep your business well-lit, inside and outside. Employees should report any burned-out lights to the business owner or manager. Keep trees and bushes trimmed, so they don't block any outdoor lights.
- Encourage the police to stop by your business.
- Learn the names of the officers who patrol your business.

Crime Prevention - 852-6709

- Use care after dark. Be cautious when cleaning the parking lot or taking out the trash at night. Make sure another employee inside the business keeps you within eye contact while you are involved in work details outside of your building.
- If you see something suspicious, call the police. Never try to handle it yourself. It could cost you your life.
- **Do not cancel alarm calls – allow the police to respond!**
- Handle cash carefully. Avoid making your business a tempting target for robbers. Keep the amount of cash in registers low. Drop all large bills right away. If a customer tries to pay with a large bill, politely ask if he or she has a smaller one. Explain that you keep very little cash on hand.
- Use only one register at night. Leave other registers empty and open. Tilt the register drawer to show there is no money in it.
- Leave blinds and drapes partially open during closing hours.
- Make sure important signs stay posted. For example, the front door should bear signs that say, "Clerk Cannot Open the Time Lock Safe."
- If your business is robbed put your safety first. Your personal safety is more important than money or merchandise.
- Don't talk except to answer the robber's questions.
- Don't stare directly at the robber.
- Prevent surprises, keep your hands in sight at all times.
- Don't make any sudden moves.
- Tell the robber if someone is coming out of the back room or vault or working in another area of your business.
- Don't chase or follow the robber out of your place of business.
- Leave the job of catching the robber to the police.

Suffolk County Police Announce Added Holiday Patrols

Downtowns and retail centers to see enhanced presence;

Officers to crack down on drunk and impaired drivers

The Suffolk County Police Department will increase police patrols in shopping centers and on roadways during the holiday season to ensure a safe and enjoyable season for residents of Suffolk County.

Suffolk County Police will be conducting high visibility patrol and enforcement—from November 26 through January 1—making every effort to keep residents safe on our roadways and in areas with increased crowds. Officers will be on foot, bicycle and vehicle patrols in downtowns and shopping areas to increase safety and security and assist with crowd control if necessary. Auxillary police officers and officers from the Canine and Emergency Service Sections and Highway Patrol Bureau will be also be utilized when available.

As always, Suffolk County Police will take a zero-tolerance approach for anyone driving under the influence and placing the public in danger. In addition to enhanced patrols, traffic safety checkpoints will be conducted to focus on drivers who are violating laws pertaining to driving while intoxicated and the use of seatbelt and cellphones while driving.

The department's annual Handicapped Enforcement Initiative will also begin and officers will increase enforcement of handicapped parking regulations.

"I wish everyone a very happy and safe holiday season," said Suffolk County Executive Steve Bellone. "The Suffolk County Police Department is continually doing all it can to ensure a safe holiday season for Suffolk County residents and I encourage all residents to make responsible decisions to do the same."

"The Suffolk County Police Department will be out in full force this holiday season making every effort to keep residents safe," said Suffolk County Police Commissioner Edward Webber. "Officers will be saturating the roadways and shopping areas to arrest anyone who chooses to break the law and put others in danger."

The Suffolk County Police Department would residents to be safe during the holiday season. We offer the following safety tips:

Dear Resident/Business Owner:

When an emergency arises, police, ambulance and fire personnel need to be able to locate your home or place of business quickly. In such circumstances, every second can be critical. If emergency personnel have difficulty locating your home or place of business because your street address number is not prominently displayed, vital emergency aid will be delayed.

If you received this letter, a member of the Police Department noticed that your street address is not prominently displayed on your residence or place of business. Please help emergency personnel to help you by following the guidelines listed below.

DISPLAYING STREET ADDRESS NUMBER ON ROADSIDE MAILBOXES

Size: The display of reflective block-style number(s) (minimum of (3) inches) on the mailbox is recommended.

Visibility: Be certain that decorations, shrubbery, or the mailbox flag do not obstruct the posted number(s). Also, it is important to display the number(s) on both sides of the mailbox.

It is also very important to have your street address number displayed on your residence/building, especially if your mailbox is not located directly in front of residence or building.

DISPLAYING STREET ADDRESS NUMBER ON RESIDENCE/BUILDING

Color: The color of the street address number(s) should contrast from the house/building color.

Please display your street address number conspicuously. Help us to help you when you have an emergency.

I. PROPOSITO

Conforme a la Orden Executiva del Condado de Suffolk No. 10-2012, el Departamento de Policía del Condado de Suffolk ha desarrollado el Plan De Acceso De Idiomas Para Dominio Limitado del Inglés Del Departamento de Policía del Condado de Suffolk (Suffolk County Police Department Language Access Plan) ("Plan") que establecen las estrategias que deben ser implementadas en un esfuerzo para asegurar que personas con dominio de inglés limitado - Limited English Proficiency (LEP) tengan acceso significativo a todos los servicios y programas del Departamento.

II. POLIZA

La misión del Departamento de Policía del Condado de Suffolk es proveer y mantener un ambiente seguro en el cual gente puede vivir y trabajar. Cada miembro del Departamento reconoce su obligación de proveer servicios profesionales dando ayuda a los que la necesiten, proporcionando un ambiente libre de temor, llevando ante justicia a los que violan la ley y protegiendo a todas personas y propiedad de acuerdo con normas legales e éticas.

El Departamento le sirve a una población diversa con muchos residentes cuyo primer idioma no es inglés y que tienen una capacidad limitada de leer, escribir o entender inglés. Individuos con LEP pueden ser capaces de comunicarse a través de ciertos modos (por ejemplo hablando), pero aún tienen una limitada competencia en otros (por ejemplo en la lectura o escritura). El Plan del Departamento se encargará de esas necesidades de la forma más eficaz y eficiente en sus esfuerzos por dar a todos los residentes del Distrito de policía del Condado de Suffolk el mismo alto nivel de servicio de policía. El Departamento evaluará regularmente las necesidades lingüísticas de los residentes, así como el enfoque del Departamento al abordar estas necesidades y actualizará el Plan anualmente según orden ejecutiva No. 10-2012.

El uso de servicios de idioma del Departamento de Policía no se considerará por cualquier miembro de este departamento como base para preguntar sobre el estado de inmigración.

Ningún miembro de este Departamento preguntara sobre o revelara el estado de inmigración de un individuo, a menos que tal pregunta o revelación se requiera según la ley.

Este Plan se incorporará en las Normas y Procedimientos del Departamento y se harán disponibles al público en el sitio web del Departamento. El Plan también será distribuido a grupos comunitarios LEP.

Investigadores seleccionarán al azar un número predeterminado de llamadas para auditar con el fin de garantizar que los denunciantes estaban satisfechos con el servicio policial proporcionado.
6. Esta correspondencia se enviará a través de la cadena del comando del supervisor inmediato a la Oficina del Comisionado de Policía donde una determinación se hará en referencia a la designación del miembro como un DAI.

Avoiding Home Burglary

Most criminals who burglarize homes are looking for an easy hit; a house that they can break into quickly, take something of value, and leave without being detected. Yes, there are professional burglars who can gain entry into almost any home if they want, however, most criminals who break into homes are opportunists who got lucky with an open window or unlocked door. There's no fail-proof way to keep out a burglar, but every little bit of deterrence helps. Even if you can't afford a security system, you can take a few minutes to make your home a little safer – target harden your home. Some relatively simple steps will greatly decrease the odds of a break-in, which means you can enjoy a bit more peace of mind.

Once a burglar has selected a home to burglarize, most will spend no more than a minute trying to break in and less than five minutes inside. Most residential burglaries occur on the first or ground floor. The point of entry is usually made at the rear or by a side door; the second most common access is via the garage door. Most burglaries occur during daytime hours when homes are empty, and belong to two person households.

Now that you know a few facts about burglary, in order to outfox a burglar, you need to think like one. Here are a few questions a burglar would ask himself before he breaks into your home. Ask this yourself these questions.

If you were a burglar targeting your own home - how would you get in to your home? Evaluate your home from the inside and out, night and day. You might even try a "mock" break-in, trying window jambs and loose locks on your house's

perimeter. Be sure to let the neighbors know what you're up to before you go lurking in the bushes. Here are a few thoughts to harden your residence to burglars.

Lights

Even though most burglaries occur during the day, some occur during hours of darkness. Criminals are in search of houses with no one home. To reduce your home's risk of burglary at night, install motion lights in the front and in the rear of your house wherever possible. To be extra cautious, try to position the lights at the corners of your residence so the motion detectors can catch someone approaching from the side. Make sure the lights are positioned at a height that someone cannot disable them by easily reaching up and unscrewing the bulb.

Landscape

Make sure all shrubs and trees are trimmed back so they do not allow a burglar to conceal himself while attempting to open a window or door. If possible, plant bushes with prickly thorns around these locations, they are a cheap deterrent.

Scope out your yard

Don't stop your security awareness at the outside walls of your house. Your yard also deserves attention. In general, don't leave anything around the yard that might help a burglar get into your house. Ladders, stackable boxes or any garden tools should be put away, preferably in a locked cabinet. Many burglars have used the property owner's own tools to break into a home. Don't place outdoor furniture tables nearby the house. Drainpipes could become an easy stepladder to the second floor. Yes, criminals do climb up drainpipes. Think about it, most second story windows are left unsecured and make a house easy to gain entry to.

Hide your identity

Do not place your name on your mailbox or front door, especially if you are a woman. If you really have to do this, use your last name only.

Secure the windows

Though windows are relatively easy to break, the loud noise of shattering glass will deter a thief if you're near other houses. Create a lock for wooden-frame windows. At the top edge of the bottom frame, drill two holes perpendicular to the sash or at a slight, downward angle. Drill completely through the inside sash and halfway into the outside sash. Insert nails or bolts (don't hammer or screw these) into the holes. To test this setup to make certain the bolts won't pop out when wiggled.

Don't leave windows and doors open during the night whether you're home or away. This is a commonsense precaution, but a surprising number of people forget to do just that, especially second story windows. It's a good idea to make a "pane patrol" part of your ritual of leaving the house. Another option is to use a swege window alarm and stop. A swege is like a doorstep for windows. It's a device you place on windows you use for ventilation. It allows you to keep the window open (say 6-8 inches) for air. However, should anyone push the window further open the swege stops the window from sliding and emits an ear piercing alarm to scare the intruder away and to alert you of attempted entry.

Use a pick proof locking device for your windows. Make sure the frames are solid. If you're beyond the earshot of your neighbors, they won't hear the glass breaking. Consider installing a Plexiglas sheet for the more accessible windows. This will make entry through them more difficult.

Basement windows are an easy target, since they're low and usually well hidden. Firmly wedge a steel bar across the window, or install a metal grate.

Secure the doors

All exterior doors should be solid core, and can withstand being kicked in. All should have high quality dead bolts with at least 1 1/2 inch throws on the bolts themselves. The bolts in the locks should always be solid, not hollow metal.

Insure the doorframe has a metal strike plate, which is secured by a minimum of six, three inch screws, which are screwed into the solid door frame.

Install a wrap-a-round steel plate on the front of the door which covers the deadbolt. This will provide extra protection from a burglar kicking in the door, and reducing his ability to pry the door lock.

If you don't have a peephole, install one in the front door. If you have one, make sure that you and your family are in the habit of using it. Don't open the door to anyone you don't know, especially at night. If the peephole is out of reach of your children, keep a stepladder or stepping box by the door for them to use.

Dogs, even the small yip-yip variety, have sharp teeth and a way of noisily not welcoming stealthy intruders. But a dog is more than an organic alarm--it's a living creature, and it'll need a lifetime of love, care, attention and exercise. If you can genuinely welcome a dog into your life, it will welcome the task of protecting you. But if you're a cat person (or a guppy person) at heart, then look into electronic security systems.

The recording of a bark, as sometimes suggested, may only be effective for particularly gullible burglars. Some people have a playback system that's triggered by the doorbell, but the cause-and-effect (push, bark, push, bark) is a little too easy to discern. A Beware of Dog sign is better than nothing; for an added touch of verisimilitude, get a

CPTED SERVICES

The Suffolk County Police Departments Community Response Bureau provides CPTED presentations for the community.

Participants learn how the design and use of the environment can influence human & criminal behavior and reduce the fear and incidence of crime; how natural surveillance, natural access control and territorial reinforcement decrease the opportunity for crime, and about different aspects of lighting and its affects on human behavior.

Communities that use CPTED as part of the design process have had great success.

HOW DOES CPTED IMPACT ME?

CPTED impacts each citizen by increasing safety, promoting secure environments and improving the appearance of neighborhoods and public amenities.

HOW IT IS ACCOMPLISHED?

By establishing policies for physical design including:

- Landscaping Plan
- Street Lighting Plan
- Access Controls
- Street Design
- Traffic Controls
- Demolition of Structures
- Lot Clearing
- Sidewalk Improvements

To ensure new developments meet the safety needs of our neighborhoods, CPTED Specialists from the Suffolk County Police Department are available to offer assistance to businesses and communities.

CRIME PREVENTION through ENVIRONMENTAL DESIGN

NATURAL SURVEILLANCE

The design of an area that creates good visibility for legitimate users. Criminals tend to avoid areas in which they feel easily observed. If a crime is committed, there is a greater chance someone has witnessed it.

TERRITORIAL REINFORCEMENT

The design of an area that tells others “someone owns this.” The use of landscaping, lighting, walkways and fencing define a property and suggest to criminals they don’t belong there.

Strategies.

ACCESS CONTROL

The design of an area that assists in physically guiding pedestrians and vehicles. By using fencing, landscaping, signage and walkways you show pedestrians and vehicles where they should and should not go.

MAINTENANCE

Basic maintenance and repair to property increases crime prevention exponentially. Neglected property is an invitation for misuse while a well-maintained property will elicit appropriate use. Maintain your lighting, landscaping, fencing and walkways.

3-09	11/24/2014	26		I've just moved to this county from Queens and I find the officers of this county kind, and very pleasant.
3-10	11/24/2014	26		Keep informed about the community.
3-11	11/24/2014	26		Follow up call, more presence within the neighborhood streets, not only the main roadways. Lead by example NO use of cellphone while driving.
3-12	11/24/2014	26		They are corrupt
3-13	11/24/2014	26		Being a white woman with a black man.
3-14	11/24/2014	26		Keep doing what your doing.
3-15	11/24/2014	26		Constant noting of children hanging out on the street after all hours of the night.
3-16	11/24/2014	26		Follow up on gang issues
3-17	11/24/2014	26		Have more respect for the Hispanic Community & Black
3-18	11/24/2014	26		Some issues have to be ranked as higher priorities
3-19	11/24/2014	26		More Patrol cars for the area especially around school

Att # 5

3-20	11/24/2014	26		more police driving by to show a presence
3-21	11/24/2014	26		more neighborhood patrolling (I'm aware that resources are spread thin)
3-22	11/24/2014	26		Get more involved in neighborhood
3-23	11/24/2014	26		We need more cops to drive around neighborhood and store parking lots.
3-24	11/24/2014	26		Increased staffing - better awareness of Law, Knowledge of work and mission of Center for Constitutional Rights.
3-25	11/24/2014	26		Increase staff
3-26	11/24/2014	23		White guy in spanish neighborhood, feel like that's why I got pulled over.

3-31	11/24/2014	26		Faster response time to 911 calls.
3-32	11/24/2014	26		good
3-33	11/24/2014	26		They need to know how to talk to everyone, everyone is different so you can't talk to everyone the same way. Need more training on what to do when in contact with deaf individuals.
3-34	11/24/2014	26		Respond more to noise complaints. I understand they're very busy but we need them to respond.
3-35	11/24/2014	26		Very, very rude some of them.
3-36	11/24/2014	26		When a community knows officers and officers know people personally in their community then both won't be so afraid of seeking or giving help. As well, Officers will be more friendly and part of the community, officers should walk around more and get out of their cars.
3-37	11/24/2014	26		
3-38	11/24/2014	26		The police must understand the culture and community that they serve.
3-39	11/24/2014	26		Better response
3-40	11/24/2014	23		Once pulled over for driving and both officers stepped out of the car and surrounded my car. Tried to imply I told the car. Checked my license then left.
		26		Cultural Competency

Att # 5

3-41	11/24/2014	23		I do speak English w/a heavy accent. I look American, when they found I'm not, facial expression is a problem.
		26		More training, culture sensitivity.
3-42	11/24/2014	26		I would like the SCPD to be hasty once a report is filed.
3-43	11/24/2014	26		Faster response time to 911 calls. #1 - a better attitude when talking to civilians. Officers I have encountered have had an attitude and have been very nasty when talking to me.
3-44	11/24/2014	26		Many do not understand how to communicate with a community.
3-45	11/24/2014	26		Stop profiling
3-46	11/24/2014	26		3rd Precinct has done a major job cleaning out the vagabonds adjacent parking field #7
3-47	11/24/2014	26	X	I would like if there was a case, regardless of what it is that you guys to treat everyone equally regardless of race, color, language because for God we are all equal

3-50	11/24/2014	26	X	As simple as it seems, to pay more attention to the complaints
3-51	11/24/2014	26	X	In Brentwood the officers are sometimes rude and it would be better if the majority were bilingual

3-57	11/24/2014	26	X	Increase vigilance
3-58	11/24/2014	12	X	They don't try to help you knowing the language
	11/24/2014	26	X	More to speak our language so that they don't make the decisions for us (so that people can make their own decision)
3-59	11/24/2014	12	X	the police officer didn't let me speak and was very rude
	11/24/2014	23	X	very frequently and because of that I don't call the police

	11/24/2014	26	X	More police to speak spanish and that they listen to people
	11/24/2014	OTHER	X	please do something about the people who drive with license plates from other states. I was a victim of two accidents and they didn't help me. Many of these people don't know how to drive and don't have a drivers license
3-60	11/24/2014	26	X	to treat everyone equally
3-61	11/24/2014	26	X	I would recommend that they have more responsibility of themselves and to understand more about the people that reside in this place
3-62	11/24/2014	12	X	The nicely welcomed me
3-63	11/24/2014	26	X	The SCPD should treat all people with respect, niceness and courtesy without importance of race, religion, etc. This is what I personally hope for from the police dept- its like how a father would care for his children.
3-64	11/24/2014	11	X	They speak very rude
	11/24/2014	12	X	They treated me bad
	11/24/2014	26	X	I believe if they had police on bicycles that the confidence of the officers would be better
3-65	11/24/2014	26	X	more diversity

Survey #	Date	Quest. #	Spanish	Narrative
6-01	11/17/2014	7		Family member reported incident
6-02	11/19/2014	21		The officers are wonderful, but there simply doesn't seem to be enough of them.
		26		I simply feel that the county needs to devote more resources to the department to hire more staff and upgrade systems to help combat the increasing drug problem which is causing a spike in car breakins and home invasions in our area.
6-03	11/19/2014	26		I answered excellent, but I think it would be great if you could send out pamphlets about all the different programs you offer.
6-04	11/19/2014	26		Get more involved.
6-05	11/19/2014	12		The officers were very professional and willing to answer all our questions
		13		problem is increasing specially in the are of Brentwood and Bay Shore
		23		Abuse/Discrimination/Prejudged
		26		Get involved with the neighborhood. Respect Hispanic people. Do not judge if they are poor.
6-06	11/19/2014	26		Improve response time ASAP. Improve follow up - ie If officer says he will watch area, watch for more then a day of two.
6-07	11/19/2014	26		They need to address the problems in the upper Port Jefferson area. They also need to address the several homes in the community that residents feel are places where drug activity is occurring.
6-08	11/19/2014	26		Pursue something that is the penal code whether it is "big enough or not. Don't linger outside conversing after an arrest at someones home. It is embarrassing enough, especially when the claim is false.
6-09	11/19/2014	12		There is so much wrong with the way things are done in Brookhaven. Alegations made against a police officer are never taken seriously, even when there is proof. It is very disheartening, very difficult to teach your children that the police are the "good guys".
		26		It was clear the theft was not serious enough to get attention.
6-10	11/19/2014	26		Transparency would enhance SCPD image or highlight opportunities for improvement.
6-11	11/19/2014	26		More of a police presence around the neighborhood. More Police

06-12	11/19/2014	26		More cops, more resources for them, CARs
6-13	11/19/2014	26		"GOOD" there is always room for improvement.
6-14	11/19/2014	26		Increase "drive by" police presence
6-15	11/19/2014	19		These are Police Issues, FINE, If you think they work/ why should they become my issues / I have different concerns.
		26		Listen, (not everyone who contacts SCPD is a criminal of some sort) Wrong assumptions and judgement calls.
6-16	11/19/2014	7		Concerns with drug dealing and prostitution Middle Country Rd. Coram
		26		More activity to prevent drug and prostitution on MC Rd., Coram
6-17	11/19/2014	22		I have never had a negative encounter w/SCPD
6-18	11/19/2014	26		I would like to see more police, general undercover, more events with them.
6-19	11/19/2014	26		More staff
6-20	11/21/2014	26		More patrols in neighborhoods
				The only time I have contact with a police officer is if I call them. I think they need to be seen more often in my neighborhood. They need to enforce the rules of the road. Especially at stop signs and with texting. I have a neighbor who runs the stop sign at a bus stop on a daily basis.
6-21	11/21/2014	26		
6-22	11/21/2014	26		Response time to calls.
6-23	11/21/2014	26		More Visibility.
6-24	11/21/2014	26		Respect & More community building is amazing.
6-25	11/21/2014	26		Walking patrols in downtown areas
6-26	11/21/2014	26		More feet on the street please!
6-27	11/21/2014	26		Increase the size of the force
6-28	11/24/2014	12	X	they don't know how to maintain anonymity, they don't know what it is
	11/24/2014	23	X	The officers need to know what arrogance is and that their work is service for the community
6-29	11/24/2014	26	X	I think that now they are working a lot with the community and it is good and gives us security. It is good because the police are really concerned about us.

Survey #	Date	Quest. #	Spanish	Narrative
7-01	11/18/2014	12		Some cops treat you like a person and some don't care One day I was pulled over with a large sum of money, they said I sold drugs. They would not look at my tax return I had in car.
		23		Even though some answers were negative, we need them. They had a job to do. I might not like the way they do it all the time, but even the ones that treat you like crap some times do
		26		A friend called for police for something not concerning me. As he was explaining what had occurred to a cop, four more cops pulled up and took me outside to harass me about a hit and run, I knew nothing about. My friend tried to tell those cops he didn't do anything, they told him to mind his business. What I don't is they were called there by my friend. I was almost locked up. One cop really wanted to beat me up. I did no longer want to talk to him because of his anger. I asked on of the other 9 cops may I explain to you? He said no, so I had to finish talking to the angry cop. But my friend called my wife and sister. That day I thought I was going to the hospital and then jail all because my friend called the cops on
		31		I feel that officers need to listen and have just a few more patience with the victims of the incident.
7-02	11/18/2014	26		More patrol cars
7-03	11/20/2014	26		More cars
7-04	11/20/2014	26		More patrol & Buy&Bust operations, need more narcotics officers.
7-05	11/20/2014	26		We need higher levels of police staffing in our village.
7-06	11/20/2014	26		Better response time, more patrols.
7-07	11/20/2014	26		security alarm went off at home. 45min later, Suffolk County Officer arrived at my home. I asked why so long? Officer asked if I really wanted the honest answer? The he said "some guy in Mastic just blew his brains out!"
7-08	11/20/2014	7		Some Officers have a negative input about the Shirley/Mastic /Mastic Beach Towns. Every Officer should act as though they are in West Hampton Village. Be professional &
		26		Better response time.
7-09	11/20/2014	26		Responding quickly to 911 call. More police presence and action taken for wrong doings.
7-10	11/20/2014	26		More Police, Faster response time

7-12	11/20/2014	26		SCPD to attend more meeting at Civic and other groups
7-13	11/20/2014	26		More presence in the area
7-14	11/20/2014	26		More presence in the area
7-15	11/20/2014	7		People in a vacant house
		26		More visibility, work closely with Village, more gang and drug intervention.
7-16	11/20/2014	26		I see patrol cars constancy disobeying traffic laws. Also parked in lots hanging out with other patrol cars when they could be patrolling the neighborhoods
				I think that there needs to be a better response time then I have witnessed in the past. I also think that sometimes the officers that respond to a call act as if you're an annoyance to them. They need to listen to what's being said, and maybe put themselves in the position of the person who called with the problem. There also needs to be a better police presence in our neighborhood to deter all of the crime and mischief that has been steadily increasing.
7-17	11/20/2014	26		They need better response time, more follow up and investigating crimes. DA's rarely want to proecute.
7-18	11/20/2014	26		More visibility in the Village particularly at night.
7-19	11/20/2014	26		Village of Mastic Beach needs a good authority presence
7-20	11/20/2014	21		They have been nothing but respectful
		25		More investigations should be followed up from residents in our village, who have seen drug being sold. Cameras should be put in areas where residents have reported or complains about & taken out when a full prosecution have occurred and individuals jailed.
7-21	11/20/2014	26		More visibility
7-22	11/20/2014	26		More officers available.
7-23	11/20/2014	26		A dramatic increase in the number of officers is required in order to handle the large propulation SCPD is required to serve.
7-24	11/20/2014	26		Detective following up about drug dealers/users on my block
7-25	11/20/2014	12		Pretend that they live here. Not all of us are dirtbag drug addicted people.
		26		More visibility
7-26	11/20/2014	26		More patrols in my neighborhood and a stronger police presence.
7-27	11/20/2014	26		Signs in the neighborhood but when I reached out to the 7th Precinct regarding Neighborhood Watch I was mailed a DVD. Little to no support from the officer.
